COMPACT ROOF-MOUNTED UNIT

The compact T5 is an evaporator-condenser air conditioning unit with 3 fan speeds and an adjustable thermostat. Suitable for small- and medium-sized cabins in all types of vehicles.

The T5 compact must be installed with a compressor compatible with the vehicle's engine (not included with the roof-mounted unit). We have a standard kit that may be suitable for your vehicle. Please contact us for more information.

Excellent inside and out

Highly resistant structure

Minimal maintenance

3 fan speeds

Uses R134a refrigerant gas

Recommended applications

BENEFITS TO IMPROVE YOUR WORK

T5 provides unparalleled comfort in your vehicle's cabin.

T5 is the ideal solution for vehicles without factory-installed air conditioning or when additional cabin cooling capacity is required. It is perfect for keeping the cabin air conditioned.

THE KIT includes:

- * T5 unit
- * 2x6 m pipes with couplings
- * 1 standard 5H14 AA O-ring compressor
- * 2-channel trapezoidal pulley (2A)
- * Cabled line
- * Bottle of oil

Not included:

- * Compressor bracket

Technical Details

Voltage	12 V	24 V
Power (*)	5000 W 17,200 BTU/h	5000 W 17,200 BTU/h
Power consumption	22 A/h	11 A/h
Maximum airflow	700m ³	700m ³
Size	664 x 733 x 165 mm	
Weight	25 kg / 82.67 lb	

(*) In accordance with JIS standard, test conditions: outside temperature 35°C.

Check compatibility with your vehicle manufacturer. This unit should only be installed by professionals.

The manufacturer of the air conditioning system shall not be in any way liable.

Size (mm)

FOR ROOFS WITH NO HATCH

The T5 is specifically designed for heavy vehicles without a roof hatch (making it a great option for ambulances, recovery vehicles and tractors), offering workers hugely improved comfort and protection from heat stress.
