Our All-in-1 solution

Roof-mounted air conditioning unit

Powered directly by the vehicle battery, T5 is the ideal solution when there is not an original air conditioning installed, when additional AC is required or an additional air conditioning system needs to operate with the vehicle engine off. T5 is an air conditioning system composed by an evaporator and condenser unit. Its roof installation needs to be completed with an appropriate compressor at the engine.

Voltage	12V	24V
Cooling capacity (*)	5 kW 17,200 BTU/hr	5 kW 17,20000 BTU/hr
Elect. consumption	22 A/hr	11 A/hr
Maximum air flow	700 m³/h 412 SCFM	700 m³/h 412 SCFM
Dimensions	664 x 733 x 165 mm 26.1 x 28.9 x 6.5 in	
Weight	25 kg 55 lb	

The cooling capacity was determined in the following conditions:

Installing this product may affect ROPS/FOPS capability to provide the required protection. Check compatibility with your vehicle manufacturer. The manufacturer of the roof AC system assumes no liability whatsoever.
