

OFF ROAD SOLUTIONS

Robust air conditioning systems for demanding applications and environments.

DRIVER COMFORT

Provides maximum comfort by maintaining a comfortable temperature inside the cabin.

INNOVATION

Complete engineering, design and development capabilities.

MANUFACTURING

Manufactured using Bergstrom's world class manufacturing systems and processes.

BOHS-T-ENCR-21R1-EN-B

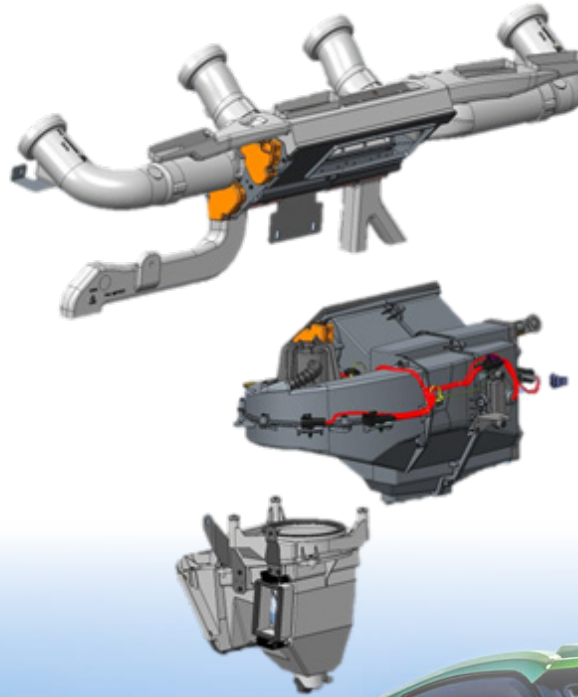

Main advantages:

- Four adjustable louvers and face plates.
- Windshield vents mounted on the top of the dash for fast defrost and efficient air flow.
- Cabin air filter easily accesible on the passenger side foot well.
- Three fan speeds: low, medium and high.
- Automotive style blend air temperature control.
- Mode control; panel, bi-level, defrost-floor and defrost.
- Intergrated freeze protection with compressor clutch relay.
- Can be integrated with load-shed strategies for low hp applications.
- Optimize to function with efficient variable displacement compressors.

Modular design

HVAC unit, mode box, duct work and filter assembly

Your vehicle just became fully more efficient

Bergstrom, the most trusted name in climate systems for commercial vehicles, has now revolutionized the way vehicles are cooled.

HVAC system designed and developed by Bergstrom featured in the latest UTV models.

Suggested Application
