Savings for the Long-Haul

***SAVE
\$4,000
PER YEAR / PER TRUCK**

**Savings will vary depending on
current diesel gas pricing.*

What is Shorepower?

Shorepower provides convenient access to power for appliances, climate control and entertainment. Higher power 460v connections are also available for eTRUs in select locations.

With razor-thin trucking industry margins, every dollar counts. Plugging into a Shorepower pedestal helps long-haul trucks save over \$4,000 per year on fuel alone versus idling during mandatory rest periods, plus reduced maintenance on engines.

How does it work?

To connect to Shorepower, you need one of the following options:

OPTION 1

A heavy-duty extension cord + any 110V appliance or accessory

OPTION 2

Pre-wired on-board shore power capability (an option on most new cabs and TRUs) or dozens of aftermarket plug-in equipment options (e.g. electric HVAC systems, battery or hybrid APUs).

What does it cost?

Power type:	120/208v	460v*
Startup:	\$1.00	\$1.00
Hourly:	\$1.00	\$2.25
Cable TV:	included*	included*

*Where available

Wireless internet: \$4.95/day unlimited

Payment options: Visa/MC/Discover or Shorepower Gift Card via our toll free hotline, on-site kiosk or through any web browser.
